For Immediate Release

Suzlon Group wins 20.5 MW contract in UK

Pune / Edinburgh: Suzlon Group's wholly owned subsidiary, REpower, has signed a deal to supply 20.5 MW to Sixpenny Wood wind farm, which has been developed by Your Energy, a subsidiary of AES Wind Generation. The wind farm, located 2.5 miles east of Howden, in the East Riding of Yorkshire, consists of 10 MM92 REpower machines.

This is the first contract REpower has signed with AES Wind Generation, which is a subsidiary of The AES Corporation, a global power company operating more than 1,800 MW of wind capacity around the world.

The turbines at Sixpenny Wood, with a rated output of 2.05 MW each, will generate enough electricity to power the equivalent of nearly 12,000 homes annually.

Installation of the wind turbines will start in mid-2012 and the wind farm is expected to be complete by the end of the year.

Rick Eggleston, Managing Director of REpower UK, commented: "It's a pleasure to be working with AES Wind Generation for the first time. We've already installed a number of wind turbines in that area, so we know that the MM92 machine that we're supplying for Sixpenny Wood is ideal for the local wind conditions."

David Wilson, Project Director at AES, added: "AES is pleased to begin working with REpower on this project and hope this contract signals the start of a successful relationship."

Since its launch in 2004 REpower UK has delivered 36 onshore wind farms in Scotland, England and Wales and one offshore wind farm, Project Beatrice, in the North Sea. However, its largest offshore contract is currently underway, with the company currently commissioning the 30 REpower 5M wind turbines for Vattenfall's Ormonde wind farm in the Irish Sea, with a total rated output of 150 MW.

About Suzlon Group:

The Suzlon Group is ranked as the world's fifth largest* wind turbine supplier, in terms of cumulative installed capacity, at the end of 2010. The company's global spread extends across Asia, Australia, Europe, Africa and North and South America with over 18,000 MW of wind energy capacity installed in 28 countries, operations across 32 countries, a workforce of over 13,000 and revenues of approximately US\$ 5 billion. The Group offers one of the most comprehensive product portfolios – ranging from sub-megawatt on-shore turbines at 600 Kilowatts (KW), to the world's largest commercial 6.15 MW offshore turbine – with a vertically integrated, low-cost, manufacturing base.

The Suzlon Group is headquartered at One Earth, a 10.13-acre campus in Pune, India, powered a 100 percent by renewable energy. One Earth has achieved Platinum-level LEED certification, the highest level of green-building certification.

The Group comprises of Suzlon Energy Limited and its subsidiaries, including REpower Systems SE. REpower is a leader in wind turbine technology, particularly offshore, and produces the 6M – the world's largest commercial wind turbine. With just under 2,500 employees worldwide, it is headquartered in Hamburg and has around 3,000 wind turbines operating around the world.
