

# Suzlon bags 39 MW order for wind energy

Renewable energy solution provider Suzlon on Thursday announced that it has bagged a 39-MW wind power project from Thermax Group company First Energy. This order is part of a 100-MW wind-solar hybrid project by First Energy. Suzlon will install 13 wind turbine generators. "This is our first order with the group and features our 3 MW series product, which is one of the largest wind turbines in India," said J P Chalasani, CEO, Suzlon Group.
