

Suzlon's 47.6MW wind project to be set up in Bharuch

Ahmedabad: Renewable energy major Suzlon Group announced on Tuesday that it has bagged an order to develop a 47.6 megawatt (MW) wind power project for the KP Group in Vagra in Bharuch district. The project is expected to be commissioned by 2024.

Suzlon is set to supply S133 wind turbines and supervise the execution and commissioning of the project. Suzlon will also provide comprehensive operations and maintenance services post-commissioning.

J P Chalasani, CEO, Suzlon Group, said, "The KP Group has been a long-standing player in renewable energy and has consistently worked towards increasing renewable energy adoption in the country. The power generated from this project will serve the commercial & industrial (C&I) consumer segment, which is a key segment to drive deeper penetration of renewables in India."

Dr Farukbhai Gulambhai Patel, chairman and managing director, KP Group, said, "This project is in line with our goal to unlock India's renewable energy potential and power the commercial and industrial sectors." TNN
