

# Suzlon bags wind energy project from Everrenew

Renewable energy solutions provider Suzlon Group on Friday said it has secured an order for a 100.8 MW wind power project from Everrenew Energy. However, the company did not disclose the value of the order. Suzlon will supply wind turbines and supervise the execution and commissioning of the project in TN. It will install 48 wind turbine generators and it is expected to be commissioned in March 2024.
