

Suzlon secures an order of 29.4 MW from BrightNight

Pune, Suzlon Group, India's largest renewable energy solutions provider, today announced a new order win for the development of a 29.4 MW of wind installed capacity for 100 MW co-located wind-solar hybrid project of BrightNight, a global renewable power producer. Suzlon will install 14 units of their

S120 – 140m wind turbine generators (WTGs) with a Hybrid Lattice Tubular (HLT) tower and a rated capacity of 2.1 MW each at Osmanabad in Maharashtra. The project is expected to be commissioned in phases, beginning in April 2024.

Suzlon will execute the project with a scope of supply, installation, and commissioning. Additionally, Suzlon will also offer post-commissioning operation and maintenance services.

JP Chalasani, Chief

Executive Officer, Suzlon Group said, "We are happy to announce our first order with 'BrightNight', a global renewable energy Independent Power Producer (IPP) with a rapidly growing footprint in India. We take pride in our esteemed customers who have demonstrated their faith in our leading technology and comprehensive capabilities throughout the wind energy value chain. This order is a testament to the quality and reliability of our technology and service solutions. The power generated from this project will target the C&I customer segment, creating deeper penetration of renewable energy in India. Suzlon is committed to partnering with increasing number of Indian industries, driving them toward their net-zero targets while powering the nation with sustainable energy."
