

# ■ Suzlon's Wind Turbine Gets RLMM Listing

**MUMBAI** Renewable energy solutions provider Suzlon Group on Wednesday said its S144 – 3 MW

series of wind turbines received the RLMM (Revised List of Models & Manufacturers) listing from the Ministry of New and Renewable Energy (MNRE). This listing marks an important milestone for the successful commercialisation of the product, the company said in a regulatory filing. Suzlon has already installed the first prototype of this series at a hub height of 160m with a hybrid lattice tubular (HLT) tower at the Gondal site in Gujarat. Currently, the product is in the process of serial manufacturing and commercialisation, the company said. —Our Bureau
